

Law Enforcement Vehicle Armor

Law Enforcement Vehicle Armor

ASGI has developed easy-to-install door panel inserts that can retrofit any vehicle. The armor panels can be transferred to other vehicles and can be installed by ASGI or an agency's own motor pool (training required).

- Panels come complete with mounting hardware for easy installation.
- Ballistic panels are transferrable.
- Will not interfere with the vehicle's window mechanism.
- Successfully tested in the presence of law enforcement organizations.

Armor Solutions Group International law enforcement vehicle armor is a cost-effective ballistic solution for urban, suburban and rural agencies. ASGI offers multiple levels of door panel protection ranging from NIJ Level IIIA to level IV.

STANDARD OPTIONS*

NIJ level III

- Defeats: Handgun, shotgun, and rifle rounds
- Weight: 28.8 lbs per door

NIJ level IIIA

- Defeats: Handgun and shotgun rounds
- Weight: 7.2 lbs per door panel
